No. of students scored above 150 = 32

- ➔ Some hard work is essential. With similar score in actual AIEEE, it's difficult to get most preferred courses in open category, though you can get a seat in NITs .
- ➔ Others can get better courses in top NITs.

No. of students scored above 100 = 64

For a similar performance in actual AIEEE

- ➔ OBC students can get seat while it's very difficult under open category.
- ➔ SC/ST students can get good courses in good NITs.

Students with scores below 100 can also get seat in NIT if you work hard and score higher in the actual AIEEE.

The mock exam question paper was designed with the aim to motivate the students. The actual AIEEE might be quite tougher. So we advise you to work more without losing confidence for better results.

RANKING CRITERIA IN CASE OF SAME MARK:

- Maths marks will be compared first, if this is also same then; physics marks are compared.
- Date of Birth is then compared.
