Workshop on

"Emerging Trends in Supply Chain and Changing Business Environment"

Department of Management Studies, National Institute of Technology, Trichy

The Department of Management Studies NIT Trichy, in its pursuit of managerial excellence and endeavor of producing industry oriented managers is conducting a workshop on

"Emerging Trends in Supply Chain and Changing Business Environment" on 22-23 Jan 2011

About the Workshop

The workshop aims to present the growing trends, technological breakthrough and ideas in supply chain management in varying perspectives followed with live case studies, so as to benefit academicians, industry professionals and students. The workshop focuses on creating an environment of "learning by doing" and emphasizes on active participation of all the groups. It provides a common platform to corporate professionals to share their experience and to have a hand on experience of the challenges faced by other professionals. It also provides an opportunity to the students to get acquainted with the various topics of supply chain by interacting with eminent speakers from the leading firms. Various topics and trends that will be discussed by the profound speakers from the industry would be very useful for the academicians for their further research.

Unique feature : Every topic will be followed by a half an hour "discussion session" that will elaborate the objectivity of the particular topic .

About the Institute

DoMS NIT Trichy, a pioneer of management studies in India was established in 1982 and relishes its distinct alumni base across the globe. The students of the school garner various renowned firms and have added great value to their respective firms .The institute thrives to develop managers and entrepreneurs of essence and excellence to enrich the society through education. This workshop is yet another step in its quest towards excellence.
