WORKSHOP On

VIDEO ANALYTICS

Under

Indo -US 21st century Knowledge Initiative Programme

27th and 28th NOVEMBER 2015

Organized by
Department of Computer
Applications
NIT Trichy—620015

Objective

This workshop is intended to provide opportunity to Faculty members, Research scholars, Industry participants and the Students to enrich their knowledge in Video Analytics and associated tools and techniques.

About the Workshop

Video Analytics is a process of analyzing video streams captured from multiple surveillance systems. It enhances video surveillance systems by performing real time event detection and post-event analysis. The statistical data is extracted while saving manpower costs and increasing the effectiveness of the surveillance system operation. The ultimate objective of Video Analytics is to simulate human cognition and hence develop the ability to make useful inferences based on the video content. The Image and Video processing techniques is being used to detect real-time events such as Intrusion Detection, Traffic obstacles, Tailgating of people/vehicles, Foreign object detection, Crowd density estimation, Smart indoor/outdoor monitoring and many more. The topics covered during the workshop are:

- Background Modeling
- Object Detection & Tracking
- Video Content Analysis
- ♦ Action Recognition
- ♦ Crowd Behaviour Analysis

About NIT Trichy

The National Institute of Technology (formerly known as Regional Engineering College) Tiruchirappalli, situated in the heart of Tamil Nadu on the banks of river Cauvery, was started as a joint and co-operative venture of the Government of India and the Government of Tamil Nadu in 1964 with a view to catering to the needs of man-power in technology for the country. The college has been conferred with autonomy in financial and administrative matters to achieve rapid development. Because of this rich experience, this institution was granted Deemed University Status with the approval of the UGC/AICTE and Govt. of India in the year 2003 and renamed as National Institute of Technology Trichy and declared as Institute of National importance by act of parliament.

About Department of CA

The Department of Computer Applications is one of the pioneering departments of the institution that offers Information Technology courses such as MCA and one among the top five offering MCA courses in the country. It is committed to impart quality education in the sub-fields of IT, a field growing in leaps and bounds.

Resource Persons

- o Faculty from IISc/IIT/NIT
- O Faculty from Anna University
- o Experts from Industry
