RESEARCH INTERNSHIPS IN SCIENCE AND ENGINEERING

For American Students in India

Indo-US Science and Technology Forum (IUSSTF) and Oak Ridge Associated Universities (ORAU) are partners to launch **Research Internships in Science and Engineering (RISE)** to create unique opportunities for science, technology, engineering and medical students from the United States to undertake internships in national laboratories, federal research centers, academic research institutes, and private R & D laboratories in India. Objectives of the internships are to provide students with unique opportunities to live and work in an international context, to gain practical experience, and acquire professional skills. Internships are envisaged as a source of mutual cultural and professional enrichment for both the interns and their host institutions.

RISE will provide American students

- International professional experiences
- Enhanced practical skills
- Insight to opportunities offered by host institutions
- Work experience in international teams
- Exposure to Indian science and culture
- Life-long professional networks

Internship duration

- Minimum 3 months and up to 6 months

Eligibility

- U.S. Citizen
- Open to science, engineering, technology and medical disciplines
- Ph.D and Master students currently enrolled at a regionally accredited institution of higher education in U.S.

Internship includes

- Monthly stipend • Accommodation • Airfare
