

NIT-TRICHY OVERVIEW

The National Institute of Technology, Tiruchirapalli (NIT-T), formerly known as Regional Engineering College, Tiruchirapalli (REC-T) is one of the finest universities started by the Government of India. RECT was started in the academic year 1964-65 and has been imparting quality education since inception. In 2003, the institution was granted Deemed to be University status with the approval of UGC/AICTE. With a cream of engineering and management talent, encompassing both students and faculty, coupled with state-of-the-art infrastructure facilities, NIT-T today stands out as one amidst the elite institutions in the country.

ABOUT DOMS-NIT-TRICHY

The Department of Management Studies (DoMS), NIT-T since its inception in the year 1978 has served as a management hub for aspiring students and is being recognized as one of the best business schools in the country. Through commitment and continuous perseverance towards management education and innovation, the department has come up with a program that has earned a remarkable reputation over the years. DoMS not only teaches the art and science of management but also instills in its students virtues and skills needed to make a difference in tomorrow's world. The academicians at DoMS are known for their learning and erudition, with a well-established record of consultancy and research activities.

ABOUT EEE-NIT-TRICHY

The Department of Electrical and Electronics Engineering of this institute started in the year 1964, is now offering undergraduate programme, postgraduate programmes (Power Systems & Power Electronics) and research degrees (MS & Ph.D) in various fields of electrical and electronic engineering. EEE Department is recognized for excellence in research, teaching and service to the profession.

THE PROGRAMME THEME

“A candle loses nothing by lighting another candle.”
— Erin Majors

In this technology driven society, the students are well informed of the recent developments in the various field of arts, science, engineering and management. Teaching to the student community with such awareness, is a real challenge for the teachers in the present era. This programme addresses these challenges and throws light on effective teaching methods through modern pedagogical tools and techniques. The programme format will provide scope for an extensive discussion in all these areas and offer informal opportunities to share ideas and network with the participants and professors who are passionate about excellent teaching. The faculty members at the early stage of the teaching career will immensely benefit from this well planned programme and get further motivated in this exciting art of teaching.

FOCAL POINTS

1. Preparing for the subject

- a. Outcome based Syllabus
- b. Course plan
- c. Course materials
- d. Use of technology

2. Getting closer to the students

- a. Different learning styles
- b. Different personality
- c. Students learning atmosphere

3. Handling the class

- a. Pedagogical techniques
- b. Board Management
- c. Art of answering
- d. Students' behavioral issues

4. Evaluating the students

- a. Art of Questioning
- b. Various types of question papers
- c. Evaluating the answer sheets

5. Evolving teachers

- a. Emotional Intelligence
- b. Time management
- c. Team Building
- d. Effective communications
- e. Micro Teaching
- f. Work life balance

DELIVERY MECHANISM

- Activity based cooperative learning
- Role Plays
- Games
