

### **Horiba Low Temperature Photo Luminescence**

**In Charge: Dr. N. Gopalakrishnan**

#### **Specifications**

|             |                                    |
|-------------|------------------------------------|
| Source      | : He-Cd laser                      |
| Wavelength  | : 325 nm                           |
| Temperature | : 10 K                             |
| Sample type | : Thin films ( 1 x 1 cm dimension) |
