ABOUT THE INSTITUTE

The National Institute of Technology Tiruchirappalli, situated in the heart of Tamil Nadu was started as a joint and co-operative venture of the Government of India and the Government of Tamil Nadu in 1964 with a view for catering to the needs of man-power in technology for the Country. NIT Tiruchirappalli is one of the 31 NITs established by the Government of India. The Institute retained its No.1 position among all NITs and ranked 9th in Engineering in the “India Rankings 2020” released by NIRF, MHRD Government of India. The Institute offers UG Courses in ten branches and PG Courses in twenty-one disciplines of Science, Engineering & Technology besides M.S. (by Research) and Ph.D. in all the departments.

ABOUT THE DEPARTMENT

The Department of Chemistry has a long history of providing PG course in general Chemistry and research program in frontier areas of Chemistry. It has acquired the state of art research facilities, sophisticated instruments and well equipped laboratories. The Department is committed to high quality academic programmes and cutting edge research programmes. The Department has been consistently receiving research funds from various funding agencies like MHRD, CSIR, BRNS, DRDO, DST etc.

SCOPE OF THE WORKSHOP

This workshop aims to motivate the students in the field of computational modeling and simulation, and to provide a future direction to eco-friendly and cost-effective research in designing efficient materials for energy and biological applications. The e-lectures will be presented by experienced Professors and Scientists from India and Abroad. The participants will learn computational aspects of quantum theory and machine learning approaches.
