## ABOUT NIT TIRUCHIRAPPALLI

NIT Tiruchirappalli envisions to provide valuable resources for industry and society through excellence in education and research with a campus spanning around 800 acres and a splendid infrastructure and astounding facilities.

Owing to its vision, the institute has produced great personalities and entrepreneurs. NIT-T is currently ranked No.1 among the 31 NITs and bagged No.9 among engineering institutions in NIRF rankings 2025.

## ABOUT DoMS

DoMS-NIT Trichy is among the oldest B-Schools in India, started in 1978. DoMS - NITT notably 7th best in Tamil Nadu in NIRF Rankings 2025

## WORKSHOP - EVENT

This five-day Student Development Programme is designed to provide UG and PG students with a structured understanding of Financial Technology (FinTech) and Artificial Intelligence (AI) in finance.

The programme focuses on hands-on learning, integrating conceptual foundations with practical exposure using teaching tools and AI-driven applications. Participants will explore key domains such as digital payments, lending models, WealthTech, Blockchain, Digital Assets, InsurTech, and financial regulation.

Special emphasis is placed on applying AI in finance, including portfolio analysis, robo-advisory, and data-driven decision-making. The sessions are designed to help participants understand not just concepts, but how technology is actively shaping modern financial systems.

## PROGRAMME HIGHLIGHTS

- Hands-on sessions using FinTech tools and AI applications
- Practical exposure to AI in financial decision-making
- Coverage of Payments, Lending, WealthTech, Blockchain & InsurTech
- Integration of technology with finance concepts
- Interactive learning with case-based discussions
- Limited to approximately 50 participants

## PROGRAMME SNAPSHOT

- FinTech Foundations → Ecosystem, Payments, Infrastructure
- Lending Systems → BNPL, P2P, Compliance
- AI in Finance → Robo-advisory, Portfolio Tools
- Blockchain & Digital Assets → Analytics, Predictions
- Future of Finance → InsurTech, Regulation, Integration

## WHO CAN ATTEND

This workshop is designed for UG and PG students from colleges in and around Trichy who are interested in finance, technology, or both. It is suitable for students from management, commerce, engineering, computer applications, and related disciplines. No prior expertise in FinTech or AI is required, as the programme begins with foundational concepts and gradually moves towards applications. Students who are curious about emerging financial technologies and want to understand their practical relevance will benefit from participating.

## WORKSHOP DURATION

The workshop is conducted over five days, from 04<sup>th</sup> May to 08<sup>th</sup> May 2026, with structured sessions scheduled each day from 9:00 am to 4:30 pm. Each day includes three academic sessions covering different topics, ensuring a balanced and progressive learning experience. Short breaks are provided between sessions to maintain engagement and comfort.

## WHAT THE ATTENDEES WILL GET

Participants will gain a clear understanding of key FinTech domains such as digital payments, lending, WealthTech, Blockchain, and InsurTech. The workshop emphasizes practical learning through exposure to AI applications in finance, including portfolio analysis, robo-advisory concepts, and data-driven decision-making. Attendees will also develop awareness of how technology is transforming financial services.

May 04<sup>th</sup> - May 08<sup>th</sup> 2026
