Management Development Programme on
KNOWLEDGE MANAGEMENT & INNOVATION
January 29-31, 2015

Department of Management Studies
National Institute of Technology
Tiruchirappalli 620015

About the Programme
Knowledge management (KM) is a systematic process by which knowledge is created, captured, shared, and leveraged for promoting innovation. KM enables organizations to achieve many strategic goals such as improving products and services, improving operational efficiency, and achieving growth through innovation and promoting better organizational culture.

However, organizations face challenges in transforming human capabilities to strategic knowledge capitalization leading to business results. Successful KM implementation leads to significant changes in structural, cultural, and technological aspects of the organization, and therefore needs to be managed effectively.

Programme Objectives
- Discuss trends and developments in KM
- Develop an integrated and comprehensive perspective of KM as a strategic initiative
- Identify the strategic contexts of KM and the role of organizational culture and processes
- Discuss the frameworks, techniques, and the nature of IT support for managing knowledge
- Provide a platform for sharing experiences in KM.

Key Topics Uncovered
- Relevance and Concepts of KM
- Linking KM with Business Strategies
- Tactical approaches of KM
- Knowledge Capturing, storing and sharing
- KM led innovation in organizations
- Tools and technologies for KM
- KM and organizational culture
- Initiating and Managing KM projects
- Enterprise 2.0, Social media and KM
- KM metrics and Maturity models

For whom
The programme is aimed at managers from any functional area of organization who are keen to leverage the strength of KM for enhancing organizational competitiveness.

The programme is valuable to organizations which are contemplating KM as a strategic programme or attempting to rethink their KM strategy & tactical approaches for better results. It would be beneficial if the organizations sponsor a cross-functional team of managers so that they develop an integrative approach to KM.

Programme Delivery
It is a residential programme. The programme will be delivered through lectures, case studies, presentations by KM practitioners and a group task of evolving a framework for KM strategy formulation and implementation.

Participants shall have access to library and other resources, ample opportunities for discussions with faculty on possible collaborations, including pursuing Masters/PhD programmes at NIT Tiruchi.

Venue & Dates: NIT Trichy Campus, January 29-31, 2015

Nominations
Organizations are requested to send their nominations along with the programme fee of Residential Rs. 18,000/- (inclusive of GST) to the MDP Section (KA 81) at NIT Trichy on or before 23rd January 2015.

The programme fee may be paid through Demand Draft in favour of Director, National Institute of Technology, Tiruchirappalli.

National Institute of Technology, Tiruchirappalli (NITT) is one of the top 10 technology institutions in the country. The Alumni of NITT are occupying senior positions in the industry, academia and government. NITT is surging ahead through a transformation with values of excellence, contemporary curriculum and intensive industry orientation in pace with changes taking place in the industrial environment in the post-liberalized India.

NITT has established itself as a leading institution for carrying out research projects from national and international funding agencies. NITT is collaborating with leading organizations and universities in India and abroad.

Programme Coordinator
Dr. G. Kannabiran is the senior professor of DoMSt with over 25 years of experience. He has served as Head of the Department for many years. He has also served as the Dean of Research & Consultancy at the National Institute of Technology, Tiruchirappalli.

He has led collaborative UK/UKI projects in the areas of SME development and enhancing employability of engineering graduates. He also led a major project funded by Govt. of India to incubate innovative businesses through Center for Entrepreneurship Development & incubation, a Section 8 company promoted by NIT Tiruchirappalli. He also leads a project funded by Mphasis Foundation on Rural Women Development.

Dr. Kannabiran was awarded with the prestigious Fulbright Fellowships (Visiting Lecturer in 2005, Education Administrators Programme in 2011). He was also a British Council Study Fellow at the Huddersfield University, UK.

He currently leads the institutional level Strategic Transformation Group supporting a major goal oriented transformation at NITT.

He has extensive experience in teaching, research, training and consulting in KM. He was invited by the Asian Productivity Organisation for an expert study meeting on KM measurement held in Taiwan.

Dr. Kannabiran holds PhD in Management, besides Masters Degree in Mathematics, Computer Science & Engineering and Business Administration.
