Dr. S. Nivethitha, Assistant Professor, Dept. of Management Studies

Mr. G. Krishnan, Manager, CEDI

NIT TIRUCHIRAPPALLI AT A GLANCE:

The National Institute of Technology (formerly known as Regional Engineering College – REC), Tiruchirappalli was established in the year 1964. As an institute of National importance for higher education and innovation, its primary objective is to promote higher education, research and consultancy. NITT has established academic and knowledge focused associations with Universities, Institutions and Organizations around the world. In NIRF -2019 ranking by Government of India, NITT has secured an overall rank of 10 among all engineering colleges and 1st among all NITs.

ABOUT IPR CELL:

The pace of modern science, resulting in new and useful inventions, initiated a need for a central policy in determining the course of the creation, protection and commercialization of intellectual property. This has resulted in the establishment of the Intellectual Property Right (IPR) Cell and the Intellectual Property Policy to encourage creation and protection of intellectual property at NITT. IPR cell at NIT Tiruchirappalli strives to create awareness about the activities related to the Intellectual Properties among all sections of the society and to identify more IPs. It constantly promotes, facilitates and safeguards the scientific investigations of the faculty, research scholars and the students of the Institution.

OBJECTIVE OF THE PROGRAMME:

- To accentuate a widespread awareness on IPR among all sections of society
- To understand the role of intellectual property in fostering the creative and innovative culture
- To facilitate the protection of IP achievements through registration of rights
- To create awareness on patent infringements
- To understand the emerging trends in IPR in the contemporary digital age
- To build a strong eco-system for nurturing innovation and startups

RESOURCE PERSONS:

Workshop lectures will be delivered by eminent resource person from Department of Science and Technology (DST), Law University, Indian Institute of Technology (IITs), Indian Institute of Management (IIMs), Industry experts and startups.

FOCAL POINTS:

- Fundamentals of IPR
- National & International framework of IPR
- Patentability criteria and Patent filing
- Patent Infringements
- Industry-academia partnered IP generation
- IP commercialization, licensing and technology transfer
- IPR for digital content
