About NIT Trichy
The National Institute of Technology (formerly known as Regional Engineering College) Tiruchirappalli, situated in the heart of Tamil Nadu on the banks of river Cauvery, was started as a joint and cooperative venture of the Government of India and the Government of Tamil Nadu in 1964 with a view for catering to the needs of man-power in technology for the country. The college has been conferred with autonomy in financial and administrative matters to achieve rapid development. Because of this rich experience, this institution was granted Deemed University Status with the approval of the UGC/AICTE and Govt. of India in the year 2003 and renamed as National Institute of Technology.

The institution offers Under Graduate Courses in ten branches and Post Graduate Courses in twenty one disciplines of Science, Engineering & Technology besides Ph.D. and M.S. (by research) in all the departments. The college is an example of cultural unity with students drawn from most of the states in the country. NITT is witnessing an exponential growth in R&D activities. Apart from a large consultancy work undertaken by our engineering departments, academic research gains its momentum day by day. Nearly 200 research scholars are undergoing their Ph.D. in various fields in all the departments. NITT has signed MOUs with industries and institutions in and abroad to promote collaborative research and consultancies.

Department of Mechanical Engineering
One among the first three departments to be established in 1964 in the institute, the Mechanical Engineering Department of NITT has had the reputation of being among the finest in the country and is dedicated towards the advancement of technology and science. Keeping itself up to date with the latest developments and trends in the field and with a dedicated faculty of highly qualified and experienced members in all streams of mechanical engineering, the department consistently strives to provide world class facilities for education and research. An interactive relationship is maintained between the students and staff which enable students to develop a sound foundation in the stream in a conducive environment. This is also reflected in our campus placement which has been 100% year after year with our students getting placed in the top industrial houses of the country.

The department has an excellent industrial interaction and contributes to the industry by offering consultancy and other services. Some of them are: Heavy Alloy Penetrator Project (HAPP), Oil and Natural Gas Corporation (ONGC), Indira Gandhi Centre for Atomic Research (IGCAR), Neyveli Lignite Corporation (NLC), Bharat Heavy Electricals Limited (BHEL), Gas Turbine Research Establishment (GTRE), and others.

Important Dates
Last date for receiving applications 25 August 2016
Intimation of selection 26 August 2016
Mode of Intimation Through Email only

TEQIP II Sponsored Workshop on Research Trends in Mechanical Engineering
29.08.2016 — 03.09.2016

Sponsored by
Technical Education Quality Improvement Programme (TEQIP—II)

Workshop Coordinators
Dr. T. Ramesh
Dr. N. Siva Shanmugam
Dr. K. Sankaranarayanasamy

Organized by
Department of Mechanical Engineering
National Institute of Technology, Tiruchirappalli
Tiruchirappalli — 620 015, Tamil Nadu
http://www.nitt.edu/home/academics/departments/mech/
Workshop Objectives

The theme of the Workshop on the Research Trends in Mechanical Engineering is “Mechanical Engineering Research” and it will broadly cover all disciplines of mechanical engineering like Engineering Design & analysis, Thermal Engineering, Manufacturing Engineering and Material Science & Engineering from fundamental research to technological applications. The workshop is being organized with an aim to provide a vibrant platform for academicians, researchers and industry personnel from related areas to share their knowledge and practical experience. This will definitely provide a multi-disciplinary forum for the exchange of knowledge and expertise in the recent developments in the field of Mechanical Engineering and its application to industry.

Workshop Contents

The following research topics will be addressed during the workshop:
- Bio-Medical Engineering
- Bio-Implants / 3D Printing
- Welding processes / Hot corrosion
- MEMS
- Composite Materials
- Metal Forming
- Food processing Technology
- Heat Transfer studies
- Alternative Fuels
- Ergonomics
- Micro / Nano Materials
- Micro and Nano Machining

Eligibility of Participants

Research scholars, academicians, field engineers, corporate and executives can participate in the workshop.

Workshop Contents

The following research topics will be addressed during the workshop:
- Bio-Medical Engineering
- Bio-Implants / 3D Printing
- Welding processes / Hot corrosion
- MEMS
- Composite Materials
- Metal Forming
- Food processing Technology
- Heat Transfer studies
- Alternative Fuels
- Ergonomics
- Micro / Nano Materials
- Micro and Nano Machining

Resource Persons

Sessions will be handled by Experts from NITs, IITs, IICPT and other R & D organizations.
