CGPA TO PERCENTAGE CONVERSION

This is to certify that the institute has adopted the following formula for the conversion of Cumulative Grade Point Average (CGPA) to percentage for the students who have passed out in 2010 is,

$$\text{The average percentage of marks} = \text{CGPA} \times 9.25$$

Further, it is to certify that the following formula for the conversion of Cumulative Grade Point Average (CGPA) to percentage for all other batches of students is,

$$\text{The Average percentage of marks} = \text{CGPA} \times 10$$
