NIT TRICHY

The National Institute of Technology (formerly known as Regional Engineering College) Tiruchirappalli, was started as a joint and co-operative venture of the Government of India and the Government of Tamil Nadu in 1964 with a view to catering to the needs of man-power in technology for the country. The college has been conferred with autonomy in financial and administrative matters to achieve rapid development. Because of this rich experience, the institution was granted Deemed University Status with the approval of the UGC/AICTE and Govt. of India in the year 2003 and renamed as National Institute of Technology

CEESAT

CEESAT was established as a Centre, under the protocol signed between the Government of India and United Kingdom with the objective of strengthening the research activities and curriculum related with energy and environment. The department had been started as an interdisciplinary nodal centre to enhance the excellence in training, research and consultancy in Energy and Environmental Science. Main emphasis is given to the identification of appropriate technologies for the efficient production, distribution and use of energy

ENERGEIA '14

ENERGEIA - a two day technical fest organized by CEESAT, NIT Trichy, has been spreading the message of energy and its importance since 2008. ENERGEIA provides a practical insight to the recent developments and endeavors in the field of energy. "Innovate energy Renovate earth" is the foundation theme for Energeia 14, which emphasizes on innovation and environmental sustainability. The program includes valuable lectures from eminent personalities from energy discipline and events that will invoke alterations in the bright minds. Our attendees include students, educators and industrialists from various parts of the country.
