NIT-T to fill 147 assistant professor posts soon: Director Mini Thomas

R. VALAYAPATHY | DC
TIRUCHY, OCT. 1

The recruitment of 147 assistant professors for the National Institute of Technology, Tiruchy (NIT-T), which was stalled following the court’s stay, will be resumed shortly, according to NIT-T, Director Dr Ms. Mini Shaji Thomas.

In an informal chat with newsmen here on Tuesday, she said that there are 252 assistant professors at present, as against the sanctioned strength of 393 posts. She said they have received as many as 3,500 applications for 147 posts.

Ms. Thomas said the annual student-cum-cultural festival of the NIT-T (Festember-2019) will be held from October 3 to 6, which is scheduled to be inaugurated by the managing director of City Union Bank, Dr N. Kamakodi.

Among others, UN Ambassador for peace, a Padma Shri awardee, and former Indian tennis player Vijay Amritraj, eminent journalist Ms. Sagarika Ghose Hollywood concept artist and Illustrator Nathan Schroeder, budding Tamil star and TV anchor Ms. Anu Haasan and upcoming singer Naresh Iyer are expected to attend this four-day event this year, she added.
Hollywood conceptual artist Nathan Schroeder, Vijay Amritraj to participate in NIT Trichy cultural festival

Hollywood conceptual artist and illustrator Nathan Schroeder and former Indian tennis player Vijay Amritraj are among the star-studded line up for Festember 2019 – the annual student-run cultural festival at National Institute of Technology (NIT) Trichy. They would be speaking at the trademark guest lecture series ‘Carpe Diem’ of Festember which has grown as one of south India’s biggest cultural festivals, said NIT Trichy director Mini Shaji Thomas. Starting on Thursday, the festival will go on till Sunday which is expected to attract over 2500 students from across 300 colleges in the country. There will be 11 workshops and nine informal events. Also, students will be participating in 67 competitions among which 25 are literary events. Popular vocalist Naresh Iyer, playback singer Benny Dayal and actress and TV anchor Anu Hasan will also participate in Festember.
National Institute of Technology (NIT) Trichy will issue a fresh recruitment notification within a week to fill vacant posts of 147 assistant professors, said NIT director Mini Shaji Thomas on Tuesday.

The Madras high court stayed the previous recruitment notification in January after a PIL challenged it for not mentioning the number of vacancies under different reservation categories.

The number of vacant posts has increased from 134 to 147 after including vacancies under economically weaker sections. Besides this, institute-wise roster for reservation is followed while calculating number of vacant posts, according to Thomas. While this was based on recent directions of the MHRD, department-wise roster had been followed to calculate vacant posts previously, she said.

Over 3,500 applications have already been received for the vacant posts. Candidates will be given an opportunity to update their applications. Presently, there are a total 252 faculty members at NIT Trichy against the sanctioned strength of 393.
It’s ‘Cinema Paradiso’ at National Institute of Technology

On the theme Cinema Paradiso, Festember’19, the annual cultural festival of National Institute of Technology - Tiruchi (NIT-T) from October 3 to 6 will feature a plethora of workshops and informal entertainment events. The stand-out programmes include Visual FX, Wildlife Photography, Argentine Tango and other artistry workshops, according to student organisers. UN Ambassador for Peace and former Indian Tennis player Vijay Amritraj, Hollywood concept artist Nathan Schroeder, and journalist Sagarika Ghose figure among star speakers for the guest lecture series Carpe Diem. About 2,500 students from 300 institutions are expected to take part in the festival, Director of NIT-T Mini Shaji Thomas said. Fusion Nite by Indo Souls, Rock Nite by Masala Coffee, EDM (Electronic Dance Music) Nite, and Pro Show by Benny Dayal constitute the highlights, she said. N. Kamakodi, MD, City Union Bank, will preside over the inaugural session on Thursday evening.
KICK OFF TOMORROW

Benny Dayal the main attraction at Festember

EXPRESS NEWS SERVICE
@ Tiruchy

INDIAN Pop band Masala Coffee and Bollywood singer, Benny Dayal will be among those performing at Festember 19, the annual student-run cultural festival at the National Institute of Technology. Starting October 3, the fest is expected to witness participation from more than 2500 students.

Apart from entertaining students, the fest will include its signature guest lectures series where several famous personalities in the country including Sagarika Ghosa, veteran journalist, Nathan Scroeder, famous Hollywood concept artist who worked in Marvel films will be in attendance.

Fest fun
Several famous personalities in the country including Sagarika Ghosa, veteran journalists, Nathan Scroeder, famous Hollywood concept artist who worked in Marvel films will be in attendance.

different language. We are expecting more than 300 colleges to participate and it will be a festival to remember.” The event will go on till Sunday.

NIT Tiruchy would be calling for filling up of 147 assistant professor vacancies in the institution within a week, said the Director Mini Shaji Thomas.

Speaking to the reporters in a meeting in Tiruchy on Tuesday, she said that the vacancies in due was initially 134 and was raised to 147 after implementing economically weaker sections (EWS) quota.

The vacancies were in due after in January the Madurai Bench of Madras High Court (before EWS implementation) stayed a recruitment of 134 Assistant Professors. It was said that NIT’s notification reportedly lacked the mention of reservation particulars.

Currently NIT has 252 faculties.
National Institute of Technology (NIT) Trichy will issue a fresh recruitment notification within a week to fill the vacant posts of 147 assistant professors, said NIT director Mini Shaji Thomas on Tuesday. This would be the second phase of recruitment which is expected to fill most of the vacant posts in the institution. The Madras high court had stayed the previous recruitment notification in January after a public interest litigation (PIL) challenged it for not mentioning the number of vacancies under different reservation categories.

The number of vacant posts has increased from 134 to 147 after including vacancies under economically weaker sections. Besides this, institute-wise roster for reservation is followed while calculating number of vacant posts, the director said. While this was based on recent directions of the MHRD, department-wise roster had been followed to calculate vacant posts previously, she said.

More than 3,500 applications have already been received for the vacant posts based on the earlier notification. Candidates will be given an opportunity to update their applications once the fresh notification is issued.

At present, there are a total 252 faculty members at NIT Trichy against the sanctioned strength of 393. NIT Trichy filled up 48 teaching posts in March last year after a gap of 10 years. The previous recruitment was made way back in 2008. Successive recruitments were stopped due to various litigations. A total 131 existing faculty members were also promoted who were awaiting the same for more than six years.
A college festival that amalgamates fun, learning and entertainment, Festember is the annual cultural and literary fest of National Institute of Technology, Tiruchirappalli, organised entirely by the students. This year, the event runs from 3 October to 6 October at the NIT Trichy campus in Tamil Nadu.

The theme for 2019 is Cinema Paradiso, promising an array of cinematic moments, and the festival comprises events, competitions, workshops, performances, and food stalls, making it an energetic student experience.

Among the speakers for their guest lecture series Carpe Diem are former tennis player Vijay Amritraj, journalist Sagarika Ghose, concept artist Nathan Schroeder, actress Anu Hasan, and singer Naresh Iyer. Performing at Festember’s Rock Night is reggae and blues outfit Masala Coffee. Also among the performers is singer Benny Dayal.

Other events at the festival include workshops about visual effects (VFX), wildlife photography, the Argentine tango dance, beatboxing, and various other arts. Among the Informal events are SegWay, Dune Buggy, Human Gyroscope, and Ziplining.
The 150th birth anniversary of Mahatma Gandhi was celebrated in the city on Wednesday. The Department of Posts released a special cover and organised an exhibition. Officials took part in a morning walk from Gandhi Asthi Mandapam near Mahatma Gandhi Memorial Government Hospital to the Head Post Office.

A mini philatelic exhibition, christened Bapupex 2019, displaying Gandhi's letters, posts and commemorative stamps and covers were displayed at the Philatelic bureau. A special cover to commemorate the 150th birth anniversary of Mahatma was released by A. Thomas Lourduraj, Director, Central Region. It was received by N. Siva Chandra Arun, Treasure Collections, who sponsored the covers.

Students and staff of Shrimati Indira Gandhi College took part in an event at the Gandhi tree, under which Mahatma Gandhi is said to have delivered a talk and interacted with students of National College and citizens when he visited Tiruchi in 1934. Secretary S. Kunjithapatham, Principal S. Vidhyalakshmi paid floral tributes while students delivered speeches on Gandhi's policies and beliefs focusing on non-violence. Nearly 20,000 staff and students of campus schools of BHEL, Tiruchi, took part in a mass cleaning drive and awareness programme led by R Padmanabhan, Executive Director, BHEL, Tiruchi.

The Institution of Engineers, Tiruchi Chapter, in association with IEEE Student Branch of National Institute of Technology, Tiruchi, celebrated the day by holding a talk on "Mahatma Gandhiji's contribution towards nation building and his views on education policy and practice" by S. Arul Daniel, Professor, Department of Electrical and Electronics Engineering, NITT. He discussed how Gandhi's teachings were instrumental in bringing about the current curriculum being followed by all NITs in the country.

Members of farmers' wing of Tamil Maanila Congress, led by its president, Puliyr A. Nagarajan, paid homage at the Gandhi Asthi Mandapam near the Mahatma Gandhi Memorial Government Hospital.

Ajay Kumar, Divisional Railway Manager, Tiruchi, paid tributes to a portrait of Mahatma Gandhi. He inaugurated an exhibition depicting the life history of Mahatma at the junction. All 85 stations in the Tiruchi division conducted various cleanliness and awareness programmes.
Festember gets underway at NIT-T

Attributes of right attitude and hard work will hold higher value and future than academic performance, Managing Director and Chief Executive officer of City Union Bank N. Kamakodi told students of National Institute of Technology Tiruchi (NIT-T) on Thursday. Inaugurating Festember’19, the annual cultural festival presented by students, Mr. Kamakodi, an alumnus, said organising such events would stand them in good stead in achieving success in their career. Recalling his role as public relations coordinator for Festember in 1993 and 1994, he said it was important for students to make use of all facilities and opportunities on the campus to improve their skills and knowledge. Presiding over, NIT-T Director Mini Shaji Thomas said cultural events such as Festember were necessary to provide students a much-needed break from academic schedule. Samson Mathew, Dean-Students’ Welfare, and S. Jerome, Associate Dean, also addressed the students.
NIT Festember ’19 begins

POPULAR singer Karthik Iyer’s IndoSoul performed at the inauguration night of NIT Tiruchy’s annual cultural extravaganza Festember on Thursday. From soulful songs to peppy numbers the band kept the audience rapt. CEO and MD of City Union Bank Dr. N Kamakoti inaugurated the event. Kamkoti is an alumnus of the and recalled his time in college. NIT Tiruchy Director, Dr. Minik Shaji Thomas were present.

CEO and MD of City Union Bank Dr. N Kamakoti addressing the gathering at NIT Tiruchy on Thursday | EXPRESS
The four-day NIT-Trichy annual cultural festival Festember ’19 began on Thursday with its alumnus City Union Bank MD N Kamakodi inaugurating the event. A 1994 batch chemical engineering student, he recalled his days at the institute when he was the president of the Festember event, he asked students to choose their career with a positive attitude and work hard to succeed in life. He asked students to make full use of cultural events as these memories can be cherished for the rest of their life. Mini Shaji Thomas, NIT-T director, said that success in life really matters on hard work and attitude and the chief guest has set the right an example. The inauguration was followed by Festember ’19 fusion night with performance by Karthik Iyer’s IndoSoul - a band celebrated for Indian classical fusion music. The band consists of musicians from diverse musical backgrounds - Vikram Vivekanand on the guitar, Reshwin Nishith on bass, Ramkumar Kanakarajan on drums, Sumesh Narayanan on the mridangam and percussion, and Karthick Iyer on violin and vocals. The festival which will go on till Sunday is expected to attract over 2,500 students from across 300 colleges in the country. Apart from 11 workshops and nine informal events, students will participate in 67 competitions among which 25 are literary events. Popular vocalist Naresh Iyer and Tamil actress Anu Haasan will be part of Festember this year apart from singer Benny Dayal.
Hollywood conceptual artist to be part of NIT’s cultural

Trichy:Hollywood concept artist Nathan Schroeder has urged students to identify the artist in them rather than let it remain latent. He was interacting with students of National Institute of Technology (NIT) Trichy on Friday where he was the chief guest at the guest lecture series ‘Carpe Diem’ on day 2 of the annual cultural festival Festember 2019. Schroeder narrated how he converted his ideas into tangible design which was well-received in the motion picture industry. Earlier in the day, eminent journalist and consulting editor of The Times of India, Sagarika Ghose addressed the students gathering. She spoke about issues like gender inequality at the workplace and the importance of media during elections. The alternative hard rock band WACX was the first to perform in the evening. A five-piece band from Chennai, they draw their influences from different eras of music, bringing a dynamic wall of sound and a live energetic act. Performance of Masala Coffee, an Indian band, was electrifying and had the audience on their feet.
Sastra University, Thanjavur has again lifted the rolling trophy of Festember – 2019, the annual cultural festival of National Institute of Technology (NIT) Trichy, for the 21st consecutive year on Sunday. NIT Trichy director Mini Shaji Thomas gave away the rolling trophy to the Sastra team in the valedictory function. The finals of various events, including dance, music, dramatics and photography, from different clusters of Tamil, Telugu, English and Hindi were held on Sunday.

Earlier in the day, Vijay Amritraj, India’s former tennis player, addressed students and shared his mantra, which led him to achieve great heights in life. He spoke about how his mother who was his pillar of support and how she helped him recover from his failures and taught him to move forward in life. National award-winning playback singer Naresh Iyer who was part of Festember on Sunday, shared with students how he struggled to break into the music industry, and the chance given by music director A R Rahman, which helped him succeed in the contest.
NIT Trichy global alumni meet in Jan 2020

National Institute of Technology (NIT) Trichy’s alumni association RECAL has planned Global Alumni Meeting (GAM) in January 2020. The once-in-a-five-year meeting scheduled to be held in Chennai on January 4 next will have a participation of more than 2,000 alumni across the globe that have passed out since 1969. GAM plans some significant alumni contribution towards developing a corpus fund for research scholarships for NIT Trichy students and developing a sports stadium of international standards. Saying that GAM 2020 is a mega event curated to explore the realm of old memories and new bonds, Krishna Sai, president, RECAL, said that a total 45 out of 185 distinguished alumni awardees of the institute have registered for GAM. RECAL foundation has a corpus fund of Rs 1.4 crore and the interest from the fund is benefiting around 50 students every year in the form of scholarships apart from supporting them in many ways, he said.
NIT-T global alumni meet on January 4

The alumni association of National Institute of Technology- Tiruchi, formerly known as Regional Engineering College (REC), will hold a Global Alumni Meet (GAM) in Chennai on January 4. Nearly 2,000 alumni are expected at the day-long event to be held at a resort in Chennai, organised by RECAL, the alumni association. “We would like to involve the alumni in more activities being held on campus. Through their contribution, two laboratories are functional on the campus. Although contributions are being made by the alumni individually and through their batch chapters, a larger involvement will be seen at the meet,” said Mini Shaji Thomas, Director, NIT-T. Three ambassadors per batch had been appointed to organise and coordinate the event. “The primary aim of the meet is for all alumni to network. We can learn and grow from each other’s experience,” said M. Krishna Sai, president, RECAL. “The agenda will also involve raising funds, especially for a Heritage Centre and Donor Wall of Fame planned on campus and the setting up of a research scholarship fund,” Mr. Sai said. A highlight of the event will be Entrepreneurship Enclave, where recent graduates can pitch their business ideas to older alumni who are now venture capitalists, investors and business developers.
NIT alumni to meet on Jan 4 in Chennai

Trichy, Oct 13:

More than 2000 students of the NIT, here, will be attending the alumni-meet proposed to be held at MGM, Chennai, on January 4.

The General Council meeting of the Alumni association which held recently at the SRM Hotel, recently, under the NIT Director Minu Shaji Thomas in the presence of the ex-President of the Students Association Krishna Sai. NIT Dean Raman Sanakumararayanan and some of the alumni of the NIT.

Immediately after the meeting, Krishna Sai said that the NIT’s alumni associations were spread out in Chennai, Bengaluru, Mumbai, Delhi, Hyderabad and also in countries like United Arab Emirates, Singapore and the USA. He said to integrate the members of the alumni within India and also from outside the country, the General Council meeting had proposed to organise the alumni-meet at Chennai.

Krishna Sai said that through the alumni associations, the students had been engaged in various activities for the development of the Trichy NIT. He said that the alumni associations had planned to establishment a multi-national-level playground and museum at the Trichy NIT.
NIT-T’s global alumni meet at Chennai in January 2020

R. VALAYAPATHY I DC
TIRUCHY, OCT. 13

The National Institute of Technology, Tiruchy (NIT-T) alumni association (RECAL) would hold its global annual meet at MGM’s resort at Chennai on January 4 next year (2020), according to president of ‘RECAL’, M. Krishna Sai.

He told newsmen soon after their annual general body meeting and Tiruchy chapter meet held here that Mr. M. Krishna Sai, mentioned that they have already had 670 registrations for ‘GAM 2020’ and are confident to have more than 2,000 alumni & families present from across the

13 October 2019
NIT-T research scholar to get ₹ 5 lakh DRDO award

Overcoming financial hardship, a research scholar of National Institute of Technology - Tiruchi (NIT-T) from the Electronics and Communication Engineering Department K. Krushnakanth who excelled in making gadgets usable in RADAR (Radio Detection and Ranging) has won the first prize in the ‘Dare to Dream’ contest conducted by DRDO (Defence Research and Development Organisation). Krushnakanth will be receiving the prize money of ₹5 lakh from Prime Minister Narendra Modi on October 15, for his research work on Frequency Selective Surfaces. Working under the guide-ship of S. Raghavan, former Professor in the department, Krushnakanth had, over the last four years, come out with 13 gadgets that could be directly used in RADAR. Son of a carpenter, Krushnakanth has proved that hard work will take one to great heights, Prof. Raghavan said, adding that his research scholar was chosen for the award in the nation-wide contest after a thorough screening process. Krushnakanth will be filing patents for three inventions to defence sector, Prof. Raghavan added.
NIT alumni to attend global meet in January

OVER 2000 members from all over the globe are expected to participate in the once in five years global alumni meeting (GAM) hosted by NIT Tiruchy’s alumni association in January 2020 in Chennai. Reportedly, the 1969 alumni batch, when the institution was known as Regional Engineering College, will also be attending the program.

Alumni association of NIT Tiruchy, RECAL, in a meeting with reporters on Saturday said that a host of events will make the meet more than a chance to catch up. M Krishna Sai, the president of RECAL said that GAM would focus on entrepreneurship, start ups and recognising eminent alumni.

Reportedly, the association was constantly in touch with the institution with curating alumni visiting faculty programs and alumni designed industry specific courses. They also helped as mentors and provided scholarships. Each year RECAL provides scholarship to over 50 students in the tune of ₹15 lakhs. The NIT Tiruchy Director Mini Shaji Thomas was present during the meet.
Rajnath Singh lauds NIT-T researcher

R. VALAYAPATHY | DC
TIRUCHI, OCT. 22

A meritorious student-cum-research scholar Krushnakanth of National Institute of Technology, Tiruchi (NIT-T), who competed at the all-India level, earned Ph.D. seat in ECE department, has worked under the guidance of Dr. S. Raghavan, NIT-T’s retired professor of Electronics and Communication Engineering Department in the field of Microwaves, for four years. This has given him the confidence to compete with 3,000 researchers across the country in the DRDO’s “Dare to Dream contest.”

According to Prof. Raghavan, the student after the two-level screening was invited to present his work on the invention ‘RADOME’ for radar applications, namely frequency selective surfaces in front of 20 expert members. As it had a potential defence usage and uniqueness, his project earned the first prize award.

Union Defence minister Rajnath Singh in the presence of three heads of the Armed forces, the secretary DRDO and the chairman, National Security Force, decorated Krushnakanth with a commendable certificate and a cash prize of five lakh, at a function held at New Delhi recently.

This encouragement has made krushnakanth to discover and invent products to be used in defence and space research. Dr. Mini Shaji Thomas, director NIT-T, has appreciated that his achievement has brought laurels to NIT-T.

Incidentally, Mr. Krushnakanth earned a national-level title, ‘Father of FSS’ recently. He is one of the very few in India and also in the international level to get involved in ‘Practical Radome Applications’ with FSS. He is all set to earn three patents in this field, Dr. Raghavan added.
NIT Tiruchirappalli Research Scholar won DRDO’s ‘DARE TO DREAM’ Contest held at New Delhi on Oct 15

The Defence Research and Development Organization (DRDO) has launched ‘Dare to Deam’, a contest to encourage startups and individuals to come up with innovative defence and aerospace technologies. More than 3000 researchers across the country participated and after the two-level screening, Mr K Krushna kanth, Research scholar, Dept of ECE of NIT Trichy was invited to present his work on the invention on ‘RADOME for RADAR applications namely Frequency Selective Surfaces (FSS)’. Due to the defence usage and uniqueness, His project earned the First Prize Award. He received the commendable certificate and a cash prize of Rs 5 lakhs from Raksha Mantri Rajnath Singh on October 15 in the 41st DRDO Directors Conference in New Delhi on Technology Leadership for Empowering India in the presence of Chiefs of the three forces & DRDO Chairman Dr G Sath-eesh Reddy. He said this encouragement has made him discover and invent products to be used in defence and space research. He owes his success to the fundamental knowledge learnt from the ‘Microwave Subject’ taught by his guide, Prof. S Raghavan. Incidentally, he earned a national level title ‘Father of FSS’ recently. He is one of the very few in India and also at the international level to get involved in Practical RADOME applications with FSS. Prof Mini Shaji Thomas, Director, NIT-T congratulated the student and guide for achieving this feat
NIT-T scholar’s radome design tops DRDO contest

The radome designed by a research scholar at the National Institute of Technology, Trichy, (NIT-T) has come first in the Defence Research and Development Organisation’s (DRDO) dare to dream contest. The radome, a structural, weatherproof enclosure that protects a radar antenna, designed by V Krushnakanth, research scholar in the ECE department, shields the aircraft’s radar from getting detected by enemy radar. His was awarded commendable certificate and a cash prize of Rs 5 lakh from defence minister Rajnath Singh last week in the 41st DRDO Directors Conference in New Delhi on Technology Leadership for Empowering India. The project stood first among 3,000 odd projects presented at DRDO’s dare to dream contest – a scheme to foster innovation and technology development in defence and aerospace. The front nose cone of an aircraft accommodates radar for scanning and identifying targets for bombing. This needs to be protected from enemy radar from identification. His design on selective frequency can make the radar in combat aircraft invisible from enemy radars. “Signals coming from radar is the main source of detection by enemy aircraft. The radome designed by me will only allow reception of selective electro-magnetic frequency and thereby remains undetected by enemy radar,” said Krushnakanth. “The radome is designed in such a way that it will allow only certain electro-magnetic frequency. “This basically means we can see others but enemies should not see us. Our radome works in specific frequency which will be known only to us,” he said. Saying that there has not been much research in this area in the country, he said the exposure he gained in CSIR - National Aerospace Laboratories, Bengaluru, as project assistant before joining NIT-T helped his work in the area. Saying his guide S Raghavan was a driving force, he said that he is planning to take up projects under DRDO apart from exploring the possibilities on doing post-doctoral research.
Applications are invited from the eligible candidates for admission to Ph.D. (Full-Time / Part-Time) Programs and Sponsored MS January 2020 Session.
Candidates may refer www.nitt.edu for further details.
