NITT Press Note - Inauguration of 10KW solar photovoltaic panels by NIT, Tiruchirappalli Alumnus 1980 batch under ABCDEF trust

The batch of the year 1980 from NIT, Trichy (Formerly Known as REC, Trichy) was given approval to install a 10KW solar power system by the Institute. With the funds collected by the ABCDEF trust run by the alumni of the year 1980 batch students of the institution, the solar power system was procured and installed on the Terrace floor of the Administration building of the institute.

Modern grid connected 10KW solar photovoltaic panels, inverter system with online monitoring of the generation data is commissioned and dedicated to the institute today by Ms.Mini Shaji Thomas, Director of NIT, Trichy and Mr. Raja Manohar (Alumni from 1980 Batch) who is presently the Executive Director of

BHEL, Trichy.

Online monitoring of the generation data is made available to the institute and the Data monitoring is done through server system of M/s. Delta Electric who have manufactured the solar inverter.

The ABCDEF trust hopes to be in a position to implement more such green initiatives for the Institute in future also. The trust will also maintain this solar system during the coming years.
